III Brief Description of ARTI Services

ARTI is a Service Disabled Veteran-Owned business based in Alexandria, VA. Our areas of focus include IT operations & management including network engineering and help desk support, information assurance and security services including FISMA certification and accreditation, physical security operations & management, and a variety of program management and logistical support services. Founded in 1986, ARTI has a long established history for providing exceptional service to our government clients. We hold a Top Secret facility clearance and can support projects on a worldwide basis.
