CSC Federal Sector is a diversified professional services company that provides IT, business operations and specialized engineering services for the U.S. government worldwide. It is our mission to support operational effectiveness within U.S. government agencies, so that they may focus on their core missions.

CSC's capacity to serve government clients is bolstered by strengths that distinguish us from the competition:

- Our combination of back-office IT with mission support
- Comprehensive offerings from concept through sustainment
- A continuum of services to our customers during different phases of the life cycle
- Demonstrated ability to support the Government any time, anywhere, on any scale

In addition, we offer:

- SEI Level 5 credentials
- Outstanding security expertise (SSE Level 4)
- World-class program management skills
- Repeatable solutions

- Extensive experience with commercial best practices
- CSC CatalystSM methodology
- Customer alignment
- Strong mission-support focus
- Global alliances

Headquartered in Falls Church, Virginia, CSC Federal Sector serves virtually every agency and department of the Federal Government worldwide. Our long legacy of service includes several contracts held 25 years or more. We specialize in full life-cycle solutions and services. See our Case Studies for examples of our experience and expertise in action.

CSC Federal Sector has approximately 24,000 employees in more than 750 locations worldwide. Annual revenue is approximately \$5 billion.
