*ECS's highly skilled professional team offers functional and technical expertise to consistently exceed the mission requirements of our clients. Our Innovative Solutions can be categorized in three primary areas: information technology, systems engineering and telecommunications. Projects include: state-of-the-art advances in records management, full life-cycle mission-critical systems and software support, comprehensive telecommunications services and large call center support operations. Supporting 16 Federal Agencies as an ISO 9001:2000 and CMMi Level 3 certified company, ECS is an organization **engineered for performance.***
