

Vision—A Service-Disabled Veteran-Owned Small Business

On December 16, 2003, the **Veterans Benefits Act of 2003** (Public Law 108-183) was enacted amending the Small Business Act (15 U.S.C. 631 et seq.) to establish a procurement program for Small Business Concerns owned and controlled by service disabled veterans. Vision qualifies as a Service Disabled Veteran-Owned Small Business, and qualifies as a small business under the criteria in 13 CFR part 121.

Section 308 of that law provides that contracting officers may award a sole source or setaside contract to Service-Disabled Veteran Owned Small Business Concerns (SDVOSBC), if certain conditions are met. Specifically, **a contracting officer may award a sole source contract to any small business concern owned and controlled by service disabled veterans** if:

- such concern is determined to be a responsible contractor with respect to performance of such contract opportunity and the contracting officer does not have a reasonable expectation that 2 or more small business concerns owned and controlled by service disabled veterans will submit offers for the contracting opportunity;
- the anticipated award price of the contract (including options) will not exceed –
- \$5.0M in the case of a contract opportunity assigned a North American Industry Classification System code for manufacturing; or
- \$3.0M in the case of any other contract opportunity;
- in the estimation of the contracting officer, the contract award can be made at a fair and reasonable price.

Additionally, a contracting officer may award contracts on the basis of competition restricted to small business concerns owned and controlled by service-disabled veterans if the contracting officer has a

reasonable expectation that not less than 2 small business concerns owned and controlled by service-disabled veterans will submit offers and that the award can be made at a fair market price.

Vision Technologies can provide network integration services, ranging from design and installation of your cabling to servers/application support through secure wireless access for your voice and data networks. As a small business, we are large enough to support you, yet small enough to control!

As a SDVOSB, Vision provides the following network infrastructure professional services:

- *Installation and Support of Voice and Data Networks*
- *Network Integration with On-Site Support*
- *Data Center Design, Installation and Support*
- *In-building Cellular Signal Reinforcement*
- *Wireless LAN Systems*
- *CCTV/Surveillance Systems*
- *CATV & Audio-Visual Systems*
